

MILL HOUSES EQUIPMENT BENEFITS:

- ✓ Low initial costs
- High quality
- Proven high reliability
 High efficiency
- ✓ High technical level
- ✓ Long service life

DESIGN AND PRODUCTION OF SUGAR CANE MILL HOUSES:

- Capacity 500 20 000 tons of cane per dav
- Basic and Detail Engineering
- Complete scope of Services
- Delivery of Spare Parts of any type of mill house equipment

MODERNIZATION OF EXISTING SUGAR CANE MILL HOUSES:

- Upgrading of capacity
- Upgrading of existing mill houses
- Roller reshelling
- Analysis of the existing state and problems solution
- Engineering, expansion projects and efficiency improvements
- Equipment design, production, delivery and putting into operation
- Complete scope of services

Invelt Industry International, a.s. Guldenerova 908/45, 326 00 Plzen, Czech Republic Tel.: + 420 377 222 334, Fax: +420 377 222 335 E-mail:sales@3iii.cz, http://www.invelt.cz

SELECTED REFERENCES:

INVELT equipment and services deliveries for sugar plants are world-wide therefore let us provide you with several references from our extensive reference list:

Pioneer Sugar Mill, Australia

Design, delivery, supervision and commissioning of excitation set, electrical protections, electrical measurement & synchronizing, generator output & neutral point, direct current switchboard 110 V DC etc. for TG 38,6 MVA

Hamza Sugar Mills Ltd., Pakistan

Delivery of spare parts for gearbox

E-Saan Sugar Industry, Thailand

- Delivery of pinion assemblies for gearboxes
- Delivery of spare parts for mill lubrication system

SUDCCO (Sugar Cane & Development Company), Iran

- Technical assistance supervision of assembly of 8 pcs drive turbines
- Change of damaged rotor of mill turbine

Invelt Industry International, a.s. Guldenerova 908/45, 326 00 Plzen, Czech Republic Tel.: + 420 377 222 334, Fax: +420 377 222 335 E-mail:sales@3iii.cz, <u>http://www.invelt.cz</u>

SELECTED REFERENCES:

Egyptian Sugar & Integrated Industries Co., Egypt

- Delivery of excitation systems and electric protections and turbine control systems for TG 4 – 16 MW, MV switchgears, generator output and neutral systems etc. for various sugar factories
- Delivery of Elliott turbine for mill drive

- Delivery of mill stands for Fulton and Kawasaki tandems
- Delivery of spare parts mill pinions and bearings for various sugar factories

<u>Central Azucarera San Antonio,</u> <u>Philippines</u>

- Technical assistance setting up of 2 sets dewatering mills dia 42 ½ x 84 and test run
- Delivery of spare parts mill rollers, pressure feeder rollers, pinions etc.

Invelt Industry International, a.s. Guldenerova 908/45, 326 00 Plzen, Czech Republic Tel.: + 420 377 222 334, Fax: +420 377 222 335 E-mail:sales@3iii.cz, http://www.invelt.cz

SELECTED REFERENCES:

Agricola del Chira, Peru through UNI-systems

Delivery of four-roller dewatering sugar cane mill 36x66

Busco Sugar Milling Co., Philippines

- Delivery of spare parts for SKODA cutter turbines
- Delivery of spare parts cane mill roller

<u>New Krung Thai Sugar Factory,</u> <u>Thailand</u>

- Design and manufacture documentation of 6 sets cane crushing six-roller mills 43x86
- Design and manufacture documentation of 1 set cane crushing six-roller mill 45x90

Invelt Industry International, a.s. Guldenerova 908/45, 326 00 Plzen, Czech Republic Tel.: + 420 377 222 334, Fax: +420 377 222 335 E-mail:sales@3iii.cz, http://www.invelt.cz
